National Benchmark Comparisons	
Iurisdictions Included in National Benchmark Comparisons	12

UNDERSTANDING THE BENCHMARK COMPARISONS

COMPARISON DATA

NRC's database of comparative resident opinion is comprised of resident perspectives gathered in citizen surveys from approximately 500 jurisdictions whose residents evaluated local government services and gave their opinion about the quality of community life. The Town of Jupiter chose to have comparisons made to the entire database. A benchmark comparison (the average rating from all the comparison jurisdictions where a similar question was asked) has been provided when a similar question on the Town of Jupiter Survey was included in NRC's database and there were at least five jurisdictions in which the question was asked. For most questions compared to the entire dataset, there were more than 100 jurisdictions included in the benchmark comparison.

The jurisdictions in the database represent a wide geographic and population range as shown in the table below.

Jurisdiction Characteristic	Percent of Jurisdictions
Region	
West Coast ¹	16%
West ²	20%
North Central West ³	10%
North Central East ⁴	13%
South Central ⁵	7%
South ⁶	26%
Northeast West ⁷	3%
Northeast East ⁸	4%
Population	
Less than 40,000	45%
40,000 to 74,999	20%
75,000 to 149,000	17%
150,000 or more	19%

¹ Alaska, Washington, Oregon, California, Hawaii

² Montana, Idaho, Wyoming, Colorado, Utah, Nevada, Arizona, New Mexico

³ North Dakota, South Dakota, Nebraska, Kansas, Iowa, Missouri, Minnesota

⁴ Illinois, Indiana, Ohio, Michigan, Wisconsin

⁵ Oklahoma, Texas, Louisiana, Arkansas

⁶ West Virginia, Virginia, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Maryland, Delaware, Washington DC

⁷ New York, Pennsylvania, New Jersey

⁸ Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine

The National Citizen SurveyTM by National Research Center, Inc.

PUTTING EVALUATIONS ONTO THE 100-POINT SCALE

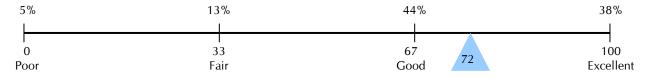

Although responses to many of the evaluative questions were made on a four point scale with 1 representing the best rating and 4 the worst, the benchmarks are reported on a common scale where 0 is the worst possible rating and 100 is the best possible rating. The 95 percent confidence interval around an average score on the 100-point scale is no greater than plus or minus three points based on all respondents.

The 100-point scale is not a percent. It is a conversion of responses to an average rating. Each response option is assigned a value that is used in calculating the average score. For example, "excellent" = 100, "good" = 67, "fair" = 33 and "poor" = 0. If everyone reported "excellent," then the average rating would be 100 on the 100-point scale. Likewise, if all respondents gave a "poor", the result would be 0 on the 100-point scale. If half the respondents gave a score of "excellent" and half gave a score of "poor," the average would be in the middle of the scale (like the center post of a teeter totter) between "fair" and "good." An example of how to convert survey frequencies into an average rating appears below.

Example of Converting Responses to the 100-point Scale

	How do you rate the community as a place to live?								
Response option	Total with "don't know"	Step1: Remove the percent of "don't know" responses	Total without "don't know"	Step 2: Assign scale values	Step 3: Multiply the percent by the scale value	Step 4: Sum to calculate the average rating			
Excellent	36%	= 36 ÷ (100-5) =	38%	100	= 38% x 100 =	38			
Good	42%	= 42 ÷ (100-5) =	44%	67	=44% x 67 =	30			
Fair	12%	= 12 ÷ (100-5) =	13%	33	= 13% x 33 =	4			
Poor	5%	= 5 ÷ (100-5) =	5%	0	= 5 % x 0 =	0			
Don't know	5%		_						
Total	100%		100%			72			

How do you rate the community as a place to live?

INTERPRETING THE RESULTS

Average ratings are compared when similar questions are included in NRC's database, and there are at least five jurisdictions in which the question was asked. Where comparisons are available, three numbers are provided in the table. The first column is your jurisdiction's rating on the 100-point scale. The second column is the rank assigned to your jurisdiction's rating among jurisdictions where a similar question was asked. The third column is the number of jurisdictions that asked a similar question. The final column shows the comparison of your jurisdiction's average rating to the benchmark.

The comparison: "above," "below" or "similar" comes from a statistical comparison of your jurisdiction's rating to the benchmark (the average rating from all the comparison jurisdictions where a similar question was asked). Differences of more than three points on the 100-point scale between your jurisdiction's ratings and the average based on the appropriate comparisons from the database are considered "statistically significant," and thus are marked as "above" or "below" the benchmark. When differences between your jurisdiction's ratings and the benchmarks are three points or fewer, they are marked as "similar to" the benchmark.

This report contains benchmarks at the national level.

NATIONAL BENCHMARK COMPARISONS

Overall Community Quality Benchmarks					
	Jupiter average rating	Rank	Number of Jurisdictions for Comparison	Comparison to benchmark	
Overall quality of life in Jupiter	78	36	355	Above	
Your neighborhood as place to live	78	24	231	Above	
Jupiter as a place to live	84	19	298	Above	
Remain in Jupiter for the next five years	83	23	99	Above	
Recommend living in Jupiter to someone who asks	84	17	100	Above	

Community Transportation Benchmarks
