On Tuesday December 9, 2008 at approximately 4:22am an alarm was received from the Bank of America ATM machine at the branch located within Abacoa Plaza at 5470 S. Central Blvd.

Upon their arrival, officers discovered a large front end loader in the rear of the building. The ATM machine had apparently been forcibly removed from its footing and moved to the rear of the building. The alarm company had video footage showing the ATM being loaded into the bed of a large white commercial flat-bed truck. The truck is then seen exiting the parking lot and traveling west towards Central Blvd.

An area search was conducted with negative results. Officers are trying to confirm ownership of the front end loader left behind at the scene. No other information is known or available at this time. Case remains under investigation.
