_____ It shall be the Consumer's/Property Owner's obligation to furnish accurate information for all metered services provided by the Town (Consumer Initial) including, but not limited to, residential air-conditioned square footage, commercial leased square footage, all commercial property uses, residential and commercial irrigation demands which accurately describe the service required and/or the number of ERCs required on the property. Increases in the number of ERCs (Equivalent Residential Connections) required for the property beyond those which are currently reserved shall require additional capacity reservation and the payment of connection fees and other related fees consistent with the additional reservation or ERC requirement.

* All Commercial accounts require a backflow assembly to be installed and tested prior to the rendering of water service. The Town may require the installation of a backflow prevention device to each Consumer requesting water service, and if necessary to protect the public's health, at various locations internal to the property and beyond the Town's Point of Delivery of Service. It shall remain the responsibility of the Consumer to install, maintain, test and certify the proper operation of the backflow prevention device in accordance with the Town's Backflow Prevention Program. The Town may require a backflow assembly be installed if there is a non-potable water source for irrigation or if the property has an active non-potable source. The Town may provide annual notification of required backflow testing to the current Consumer with established service at the location.

Commercial metered services are dependent upon the use of the property and the reservation fees paid. The meter size and connection fees shall be determined by the Town prior to this application being accepted and processed. No meter shall be set for less than 1.0 ERC.

Single family residential homes that are a minimum 3,500 square feet in size and built on property of 0.25 acres or larger, shall be required to install a minimum of a 1-inch meter to meet the domestic and irrigation needs of the property. Single family residential homes that do not require potable water as an irrigation system source and are a minimum 4,000 square feet in size shall be required to install a minimum of a 1-inch meter to meet the domestic needs of the property.

Installations are usually done within 5 to 10 working days from date of payment unless there is a water main tap required. If a tap is required, the meter installation will be scheduled within 10 to 15 working days following payment of the required tap fees. The Town of Jupiter does not connect the Consumer side to the meter. The Consumer is responsible for the connection to the water meter from the structure being served. Unfortunately, we are unable to provide the exact time of service installation however, meter installations will only be done during regular business hours.

Security Deposit Requirements: A security deposit is required to establish a new account with the Utility. The deposit is non-negotiable nor transferable between individuals. Deposits are credited on the account after sixty months of excellent payment record. Interest is accrued and paid annually at a rate approved by the Town of Jupiter Town Council. The Utility reserves the right to require a new deposit or increase a deposit amount due to an unsatisfactory payment record. By this application, Consumer recognizes that the Town of Jupiter Utilities is not responsible for loss or damage as a result of initiation of service.

The undersigned acknowledges that utility services are provided subject to strict adherence to the Town of Jupiter's Code of Ordinances for utility services and such services may be interrupted pursuant to any violation thereof. The undersigned understands that they are fully responsible for all charges at the above noted property. The undersigned agrees to pay for services promptly at the rates established by the Town of Jupiter and agrees to abide by present and future regulations relating to utility service including but not limited to water, stormwater and/or garbage services, as applicable, as established by the Town of Jupiter. By my signature below, I certify that all information provided in this application is true and correct to the best of my knowledge.
