_____ It shall be the Consumer's/Property Owner's obligation to furnish accurate information for all metered (*Consumer Initial*) services provided by the Town including, but not limited to, residential air-conditioned square footage, commercial leased square footage, all commercial property uses, residential and commercial irrigation demands which accurately describe the service required and/or the number of ERCs required on the property.

In the event of a hurricane watch or hurricane warning, all hydrant meters will be removed from the Consumer site without prior notification to the Consumer.

Hydrant meter Installations are usually done within 1 to 3 working days from date of payment. Hydrant meter use is limited to a period of up to 12 months. The Town of Jupiter does not connect the Consumer side to the meter. The Consumer is responsible for the connection to the water meter from the structure being served. Unfortunately, we are unable to provide the exact time of service installation. However, meter installations will only be done during regular business hours.
