VOL 30 NO 4 • OCTOBER - DECEMBER 2023

## Note from the Parks and Recreation Director

I'm excited to announce that in the coming months, the Town of Jupiter will be working with a consultant to develop a Parks and Recreation Facilities Master Plan.

The master planning process will help the Town develop a

community-supported plan for our parks and recreational facilities that can be successfully implemented through the Community Investment Program (CIP) and comprehensive planning. This plan will focus on the current state and future improvements to Town parks and indoor recreation facilities, including athletic facilities, neighborhood parks and playgrounds. The plan will be completed after a thorough evaluation of existing parks and facilities; public input through community meetings, focus groups

and surveys; research on current parks and recreation trends and standards; evaluation of the Town's Comprehensive Plan and levels of service requirements; and input from elected officials, Town staff, key stakeholders and the public.

The Master Plan will be a guiding document for future development and redevelopment of the Town's system of parks and recreational facilities over the next ten years.

Feedback from Town residents is essential in this planning process so stay tuned for more details on how you can get involved and ensure your voice is heard. Parks and Recreation truly is where our community grows as we strive to preserve Jupiter's unique character, history and vibrant small-town feel. We accomplish this by leveraging the unique combination of community, cultural and recreational assets that make Jupiter such a special place to work and live. I look forward to seeing you all soon as we kick off this process of developing our Parks and Recreation Facilities Master Plan!
