

Notes:

1. Hand Holes or Pull Boxes, to extent possible, shall NOT be located within a public sidewalk.
2. Boxes located adjacent to sidewalk or curbing shall be set flush with elevation of sidewalk or top of curb and flush with surrounding turf.
3. Should a box be located within a sidewalk, a special construction detail shall be developed, approved by Town Engineer, and utilized if this detail is not used.
4. All sidewalk panels surrounding the box shall be the perpetual maintenance responsibility of the entity owning the box.
5. Box installation shall meet ADA requirements with no trip or high heel gaps existing.
