

Safari

1. Open Safari browser on your Mac computer.
2. Click Safari menu and click Preferences.
3. Click Websites.
4. Toggle off the switch of “Block Pop-up Windows” option.

Chrome

1. Open Google Chrome browser.
2. Click the **three-dot** menu icon at the top-right corner and select **Settings**.
3. Click **Privacy and security** in the left panel. In the right window, click **Site Settings** under Privacy and security section.
4. Click **Pop-ups and redirects** under **Content** section.
5. Turn on the switch next to **Blocked (recommended)** and it will turn off pop-up blocker on Chrome. You will see the option turns to Allowed.

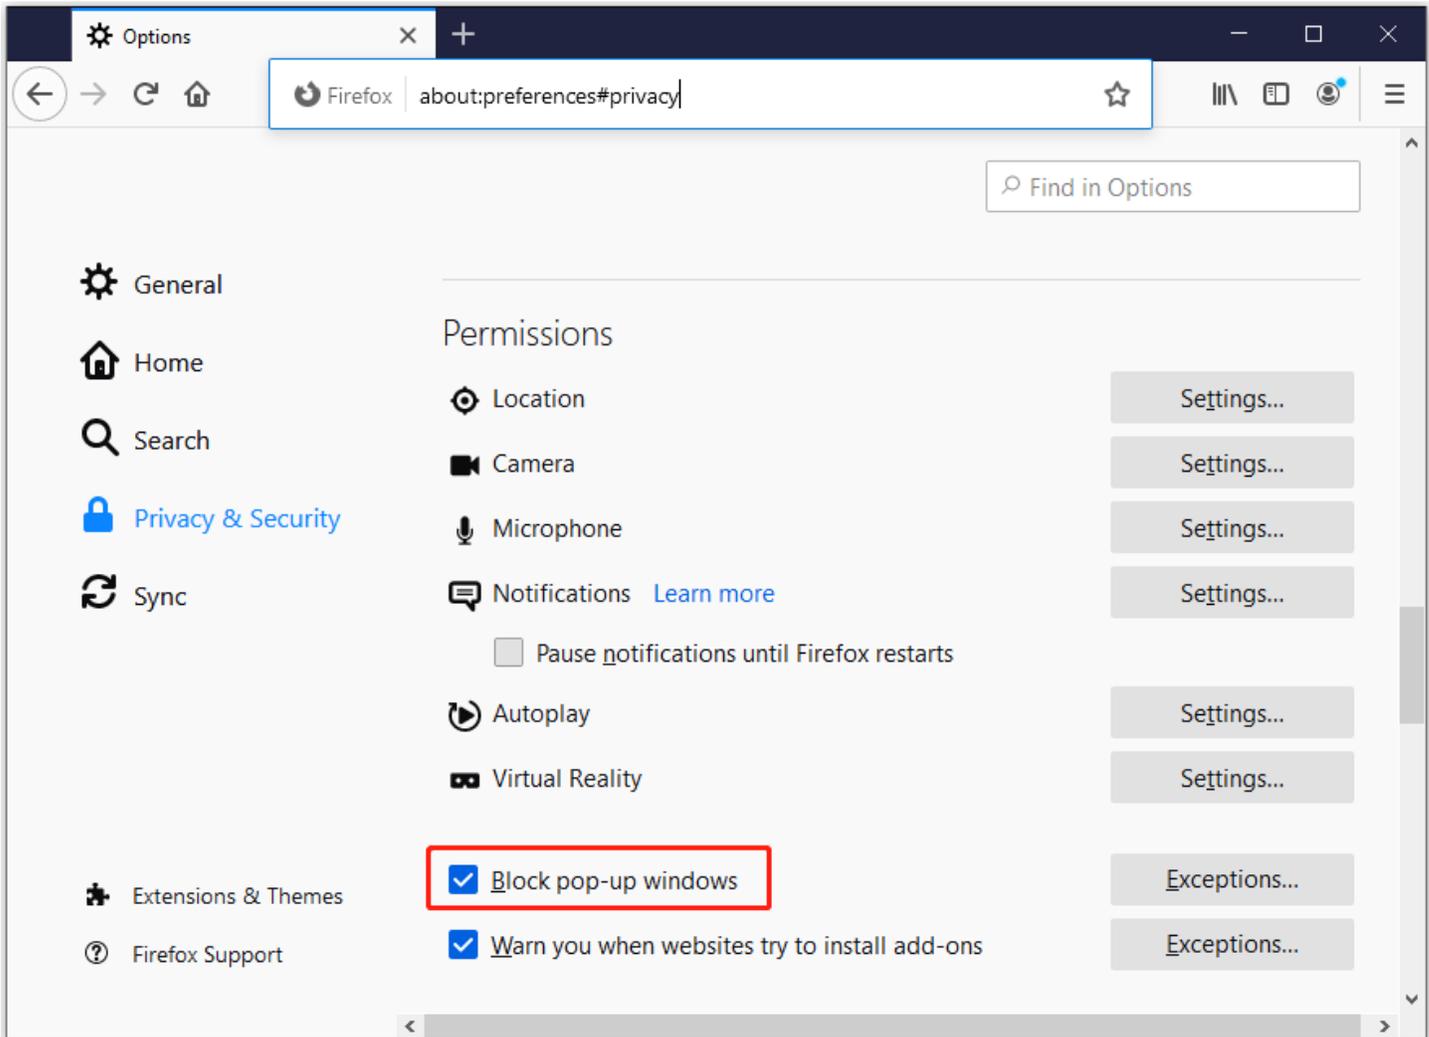

On this page, you can also click the Add button next to Block or Allow to add websites to the Blocked or Allowed list.

To enable pop-up blocked again, you can toggle the switch to Blocked again.

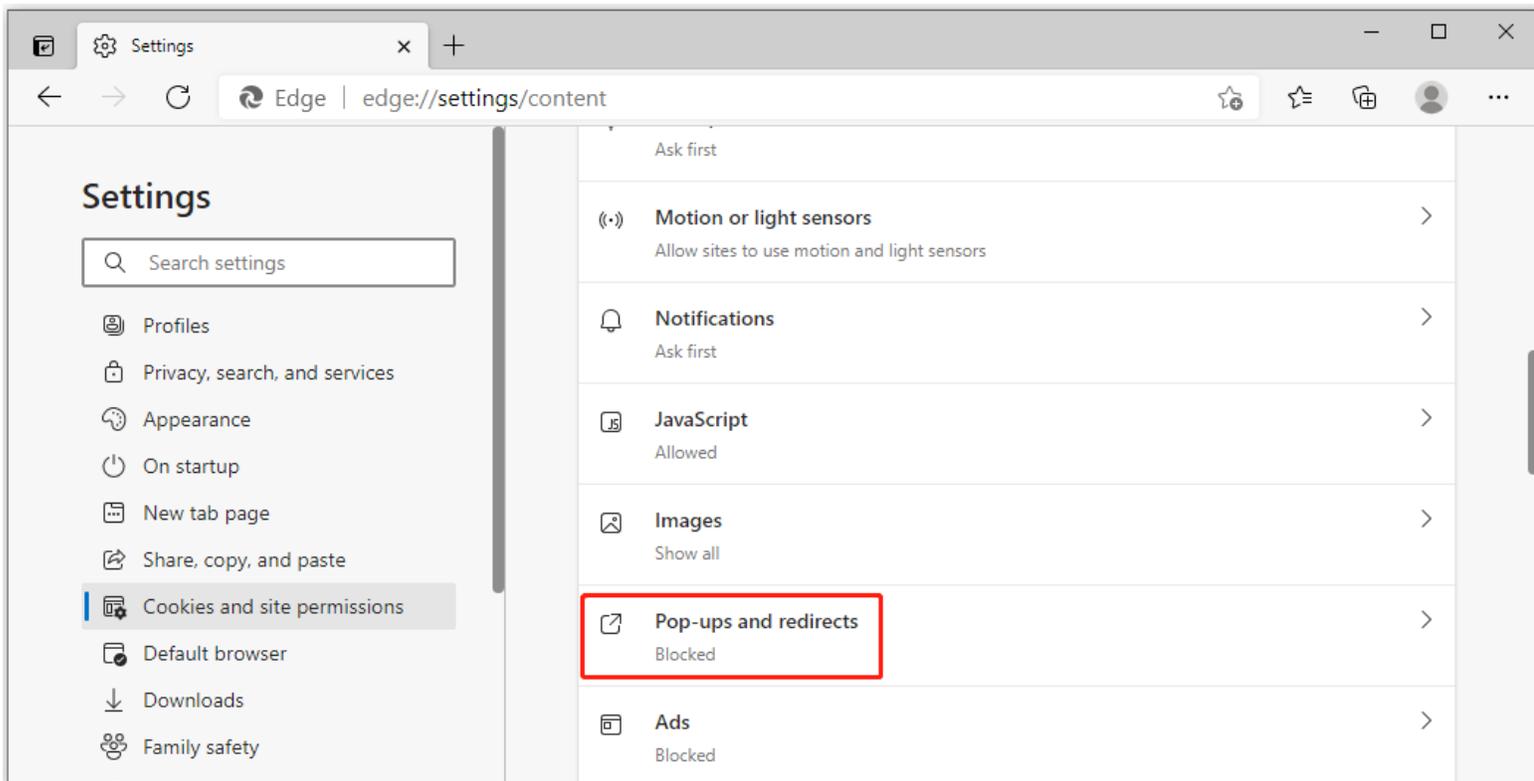

Firefox

1. Open Firefox browser.
2. Click the **three-line** menu icon at the upper-right corner and select **Options**.
3. Click **Privacy & Security** in the left panel.
4. Under **Permissions** section in the right window, uncheck **Block pop-up windows** Then the [Firefox pop-up blocker](#) is disabled and it allows pop-ups on Firefox.

Microsoft Edge

1. Open Microsoft Edge browser.
2. Click the **three-dot** icon at the top-right corner and select **Settings**.
3. In Microsoft Edge Settings, click **Cookies and site permissions** in the left panel.
4. Under **Site permissions** in the right window, scroll down to find and click **Pop-ups and redirects** option under **All permissions**.
5. Toggle off the switch next to **Block (recommended)** to turn off pop-up blocker of Microsoft Edge browser.

How to Turn Off Pop Up Blocker – iPhone

1. **Open Settings**

Tap the **Settings** app (the gray gear icon).

2. **Scroll to Safari**

Swipe down until you see **Safari** in the list. Tap it to open Safari settings.

3. **Find “Block Pop-Ups”**

Scroll down to the **General** section. You’ll see the **Block Pop-Ups** option.

4. **Toggle Off the Switch**

If the switch is green, tap it to turn it off (it will turn gray).

Note: This works on all iPhone models and iOS versions.
